

## FRST 305 - Silviculture Prescription Field Examination Schedule

Field Exams are on **Tuesday Nov 29** at the South Campus Farm. Bring a map of your site showing EU's, TU's, access, trails and a summary of your treatment regime and costs (you will briefly present this as a crew, 5 minutes max). You will then circulate to stations for individual questions - the examiners will ask you to i) observe features of the site, trees, understory plants and/or soil, ii) explain what they are telling you about ecological processes (disturbance, stand development, productivity etc.), and iii) to link these observations to your decisions about target stand conditions and treatments. Please arrive at least 5 minutes before your scheduled time via the route indicated below.

<b>Examiners 1 -</b>	<b>Meet on trail through Forest – walk in from entrance near the Children’s Garden/Farm Office.</b> <b>Crew names:</b>
12:15 pm	Natalie
